### **Message**

In this 'Amrit Kaal', with the strong spirit of 'Ek Bharat Shreshtha Bharat', under the leadership of Hon'ble Prime Minister Shri Narendra Modi, our country is progressing rapidly in all directions towards becoming a developed India. Reform and modernization of the police system is among the top priorities of the government and several important steps have been taken for this purpose, such as the implementation of three new criminal justice laws, the establishment of the Police Technology Mission and the maintenance of police-related databases through ICJS and CCTNS.

For the survey of police stations in the year 2025, their CCTNS database was reviewed and then a ground survey was also conducted on various aspects such as crime statistics, basic infrastructure, citizen feedback, cleanliness, IT resources, forensics, police communication and digital records, proactive initiatives, etc. After the survey, this report is being released which mentions the best police stations in the country and the best police stations of each State/UT as per the survey.

The annual process of ranking police stations aims to foster constructive competition among police stations and motivate them to improve their performance and bring greater efficiency to their functioning. The functioning of the best police stations represents best practices and can be adopted by other police stations according to their current circumstances.

I congratulate the officers/staff of all the top-ranking police stations for discharging their duties with integrity and dedication. I express my gratitude to the State Governments and Union Territory Administrations for their cooperation with the Ministry. I am confident that these top-ranking police stations will inspire other police stations to bring about significant changes in their functioning.

**(Amit Shah)**

MINISTER OF STATE FOR  
HOME AFFAIRS  
GOVERNMENT OF INDIA  
KARTAVYA BHAVAN-3,  
NEW DELHI - 110001

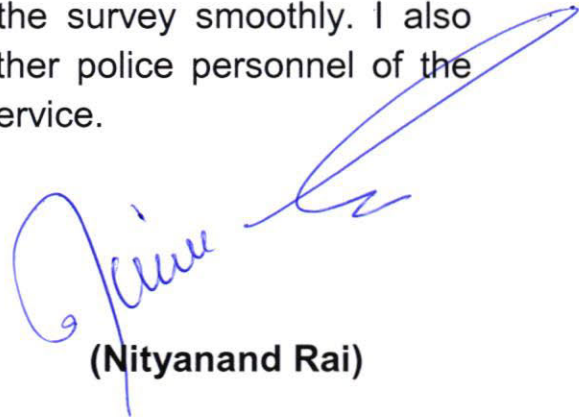

### MESSAGE

Under the able leadership of our respected Prime Minister Shri Narendra Modi Ji, our country is steadily progressing towards becoming a developed India. In this regard, among other activities, the Ministry of Home Affairs conducts an annual evaluation of police stations, which comprehensively reviews various police-related statistics as well as the physical performance of the police.

The evaluation of police stations encourages healthy competition among police stations and motivates them to become more efficient and citizen-friendly. Top-ranked police stations are located in diverse areas such as cities, towns and villages and this demonstrates that, given the available resources, police personnel are performing their duties with dedication and honesty.

I sincerely appreciate the cooperation of the State Governments and Union Territory Administrations in conducting the survey smoothly. I also congratulate the Station House Officers and other police personnel of the top-ranked police stations for their outstanding service.

(Nityanand Rai)

New Delhi.  
17<sup>th</sup> Nov, 2025

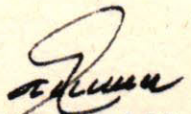

**MESSAGE**

India's policing system has undergone numerous reforms in response to the fast-paced world. Modernizing police forces, both in basic infrastructure and approach, has been a priority for the government. The annual evaluation of police stations across the country not only recognizes the hard work of our police personnel but also provides feedback on many aspects of policing.

2. The annual survey exercise is conducted through extensive use of the CCTNS database and field surveys conducted by a third-party agency. Police stations were selected based on crimes against women and vulnerable groups, property crimes, and missing persons cases. Some of the crime and performance-based parameters assessed included police station infrastructure and citizen response. Keeping in mind the Swachh Bharat Mission, cleanliness drives in police stations were also a key parameter in the survey. In addition, IT facilities, forensic infrastructure, police radio communications, and digitization of records were other parameters evaluated. The survey's citizen interface has also been revamped to better reflect citizen concerns. All states/union territories participated enthusiastically in this year's survey.

3. I thank the State Governments/UT Administrations for their cooperation in the smooth conduct of the survey which will be valuable to all stakeholders.

4. I take this opportunity to extend my best wishes to the officers of these top-ranking police stations. I also believe that these police stations are setting an example in improving the image of the police among citizens and meeting their legitimate expectations.

  
(Govind Mohan)

Place : New Delhi

# 1. Introduction

Evaluating public institutions has become a cornerstone of good governance. In the sphere of law enforcement, local police stations are often the first point of contact between the state and its citizens. They mediate local disputes, respond to emergencies and act as guardians of law and order at the community level. Ensuring that these stations are approachable, adequately staffed and well-equipped is therefore central to any strategy aimed at improving public safety and the quality of civic life. At the same time, police stations embody the values of accessibility, fairness and accountability that citizens expect from governance systems. When they function effectively, they do not merely resolve conflicts but also nurture a climate of confidence and trust within society.

Around the world, law-enforcement agencies have adopted performance metrics and benchmarking exercises to make policing more transparent and accountable. Such mechanisms are designed to measure not only how quickly and effectively police respond to incidents, but also how they engage with communities, prevent crime and safeguard vulnerable groups. In India, the Ministry of Home Affairs (MHA) uses an annual ranking system to identify and reward the most effective police stations. This initiative encourages healthy competition and provides a structured framework for continuous improvement. By creating reference points that others can aspire to, it promotes innovation, efficiency and service-orientation in policing. It highlights not just operational efficiency but also the broader social impact that a well-functioning police station can have on its community.

The ranking exercise is overseen by the Police Modernization Division of the MHA. It begins with the shortlisting of stations in every state and Union Territory, followed by a detailed evaluation based on objective data and direct feedback from citizens. Independent agencies are engaged to collect and verify this information, ensuring impartiality. By recognising exemplary performance and shining a light on gaps, the annual ranking serves as both a reward and a roadmap for improving policing standards.

For the 2025 assessment, the MHA once again appointed TransRural Consulting Private Limited (TRANSRURAL) to conduct the evaluation. TRANSRURAL's role includes survey design, data collection and analysis, and preparation of the final report. Through this collaboration, the Ministry seeks to refine its benchmarks and spur innovation in how local police stations deliver services.

## 2. Shortlisting and Evaluation

### Shortlisting Process

According to the recent Data on Police Organizations 2024 published by the Bureau of Police Research & Development (BPR&D), there are 18,284 sanctioned police stations in India as of 1st January 2024. This figure includes rural, urban, and special-purpose stations such as Women's Police Stations, Cyber Crime Cells, and those dedicated to crimes against vulnerable groups. Of these, 9,127 are located in rural areas, 5,492 in urban centres, and 3,665 are designated as special purpose police stations.

The evaluation framework encompasses this entire network of police stations, with specialized units assessed against the same parameters as general stations. This ensures uniformity and fairness in benchmarking, while also acknowledging the diverse mandates of policing across India's States and Union Territories.

For the purpose of identifying the best-performing police stations nationwide, the shortlisting process relies on comprehensive crime data compiled by the National Crime Records Bureau (NCRB). Each police station is ranked within its respective State/UT on the basis of objective parameters, weighted as follows:

Shortlisting Parameters	Maximum Marks	Weightage	
Crimes against Women	10	A-70%	B-30%
Crime Against Weaker Section	10	A-60%	B-40%
Property Offences	10	A-70%	B-30%
Missing Persons Cases	10	C-100%	
Unidentified Found Persons Cases	10	C-100%	
Unidentified Dead Bodies Cases	10	C-100%	

A- Percentage of FIR Charge sheeted out of Total FIRs Registered

B- Percentage of FIR for which charge sheet generated within 60 days

C- Percentage of Photos Uploaded on CCTNS out of Total Cases.

To ensure balanced representation across the country, the following criteria are applied:

- States with  $\geq 750$  police stations: 3 police stations are shortlisted.
- States and the NCT of Delhi with  $< 750$  police stations: 2 stations are shortlisted.
- Union Territories: 1 police station is shortlisted from each UT.

This method guarantees that every State and UT contributes to the pool of shortlisted police stations, regardless of its geographical size or number of stations, thereby maintaining both inclusivity and comparability.

#### State/UT-wise Number of Police Stations Shortlisted for Evaluation and Ranking

State/UT	Nos. of Shortlisted PS
Andhra Pradesh	3
Arunachal Pradesh	2
Assam	2
Bihar	3
Chhattisgarh	2

Delhi (NCT)	2
Jammu & Kashmir	1

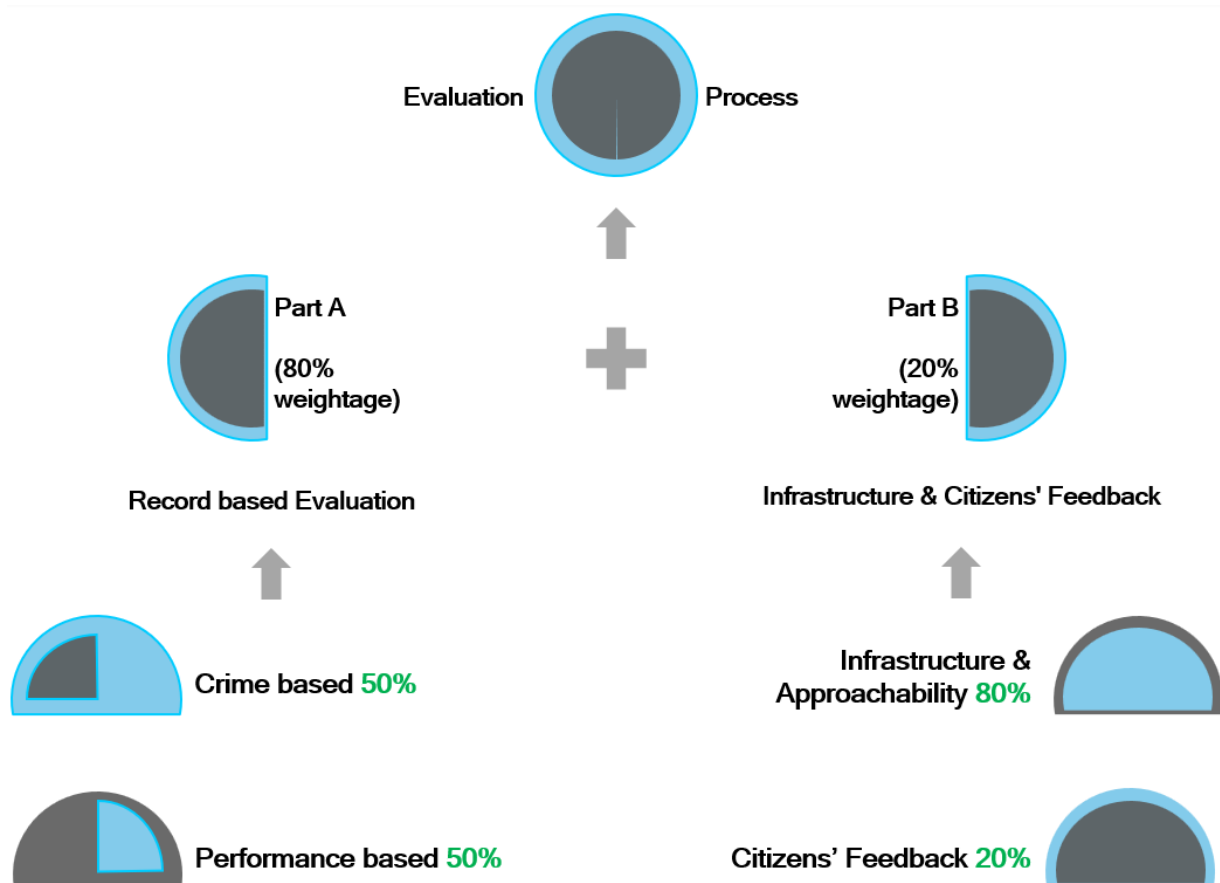

Ladakh	1
Lakshadweep	1
Puducherry	1
Total	74

## Evaluation Process

The entire evaluation process has been covered in two parts.

A. Part-1 comprises of evaluation based on record and this carries a weightage of 80 percent in the overall score.

B. Part-2 comprises of survey-based assessments and carries an overall weightage of 20 percent. Further, from the 20 percent assigned weightage to Part-2, the maximum weightage (80 percent) has been assigned to Infrastructure and Approachability of the Police Stations, followed by 20 percent weightage to Citizens' Feedback.

## Part-1: Record Based Evaluation

During this stage, shortlisted Police Stations were evaluated based on the “Performance Measurement System” adopted by the BPR&D. A scoring matrix has been created by BPR&D with positive marks for specific performance and negative marks for under-performance in certain parameters. The Performance Measurement System of BPR&D has listed out 19 major heads for evaluation. These 19 heads can be categorized into two groups viz. ‘crime based (1 to 8)’ and ‘performance based (9 to 19)’.

Crime Based	Performance Based
<ul style="list-style-type: none"> <li>•Crime prevention and proactive measures</li> <li>•Execution</li> <li>•Disposal of cases</li> <li>•Law and Order</li> <li>•Minor Acts like RPGO, Excise, NDPS and Arms acts</li> <li>•Cases under case officer scheme</li> <li>•Trapped by ACB</li> <li>•Suspension</li> </ul>	<ul style="list-style-type: none"> <li>•Action towards Crime against women</li> <li>•Disposal of old cases</li> <li>•Police Officers behaviour</li> <li>•Crime against weaker section</li> <li>•Verification</li> <li>•Road Safety</li> <li>•Conviction</li> <li>•Malkhana</li> <li>•Pendency</li> <li>•Community Reach</li> <li>•False Entry</li> </ul>

**Score of Headers 1-8: (S<sub>1</sub>):** For every Police Station, the total marks were calculated by the addition of values against each head obtained by multiplying the number of cases under each sub-head with the points (as per the format of BPRD). Each head was transformed linearly on the range as mentioned below:-

Crime Based Heads	Score Range
Minor Acts	0 to 20
Preventive Actions	0 to 20
Execution	0 to 10
Disposal of Old Cases	-10 to 20
Cases under Case Officer Scheme	-10 to 20
Law & Order	-20 to 0
Trap by ACB	-50 to 0
Suspension	-10 to 0

**Score of Headers 9 -19 (S<sub>2</sub>):** For each Police Station total marks was calculated by giving points under headers 9 -19 (as per the format of BPRD) depending on the cases under each sub-head.

## Part-2: Survey Based Assessment

The survey was designed for this stage to assess the Infrastructure of the Police Station, the approachability of the personnel and Citizen's Feedback.

**a) Infrastructure of the Police Station and approachability of the personnel-** This parameter is comprised of physical infrastructures like Police Station's building, rooms, amenities, furniture and their overall upkeep and maintenance, the discipline of the Police personnel and their approachability for the public.

The Police Station building is a public place, where people visit for various public services and urgency. It is therefore imperative that infrastructure at the police station should be sufficient enough to attend to all the visitors and should maintain adequate cleanliness. The Police Station building is also the place where the Police personnel spend a significant amount of time and therefore proper facilities of clean office space, mess and barracks are essential for the personnel to endure long hours of work. To ensure a thorough evaluation, the Police Stations were assessed on the following parameters:

- a) The infrastructure of the Police Station Building
- b) Discipline and Approachability of the Personnel
- c) Storage of Manual Records
- d) The infrastructure of Mess and Barracks
- e) SHO Declaration on the procurement and budgetary process

**b) Citizen Feedback** - Citizens expect a transparent, accessible and responsive Police service to ensure their security and solution to issues. Evaluating Police performance and service delivery begins with understanding citizens' needs and priorities. Combining citizen feedback information with operational data availed through visits helped evaluate the overall performance of the Police Stations.

The citizen feedback was divided into three categories –

**People leaving the Police Station (Complainants- 10 nos.)** - Feedback of the complainants were recorded to evaluate their overall experience at the Police Station and level of satisfaction with the services of the Police in their area.

**Market Place (Shopkeepers in the market- 25 nos.)** - Shopkeepers in the marketplace are the primary source of information about the service of the Police in that area. They are witness to situations like brawls and snatching in the marketplace and how the Police personnel tackle such situations. They are also a constant witness to Police patrolling in the market area.

**Pedestrians (Pedestrians in a residential area -25 nos.)** - Pedestrian feedback was recorded to evaluate the language, tone and behaviour of Police personnel with citizens while interacting with them and whether proper safety measures are taken by the Police in their area like patrolling at night.

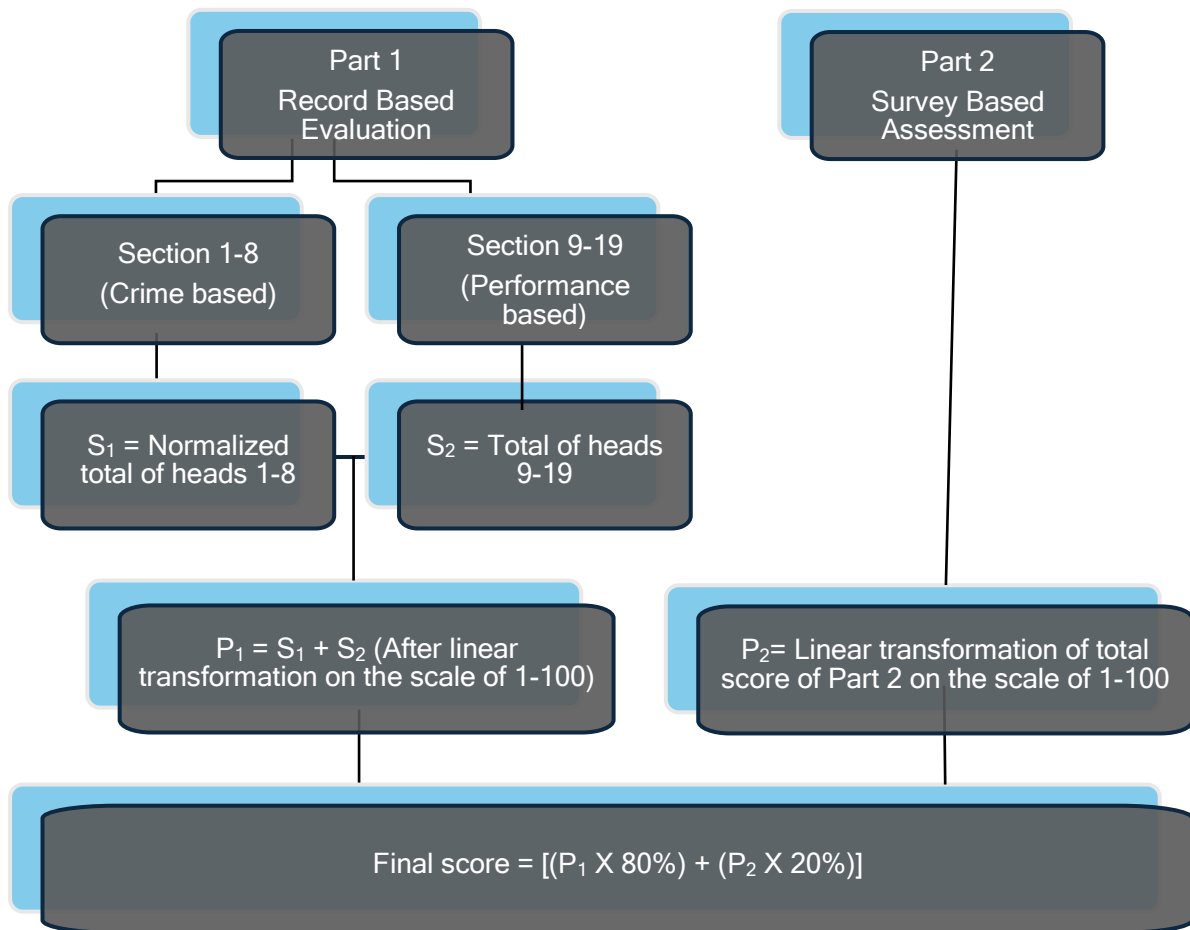

In addition to the above categories, this year's evaluation also sought feedback on some new aspects: visibility of FIR-related rights within police stations; the extent of community awareness and outreach activities undertaken; the use of digital grievance redressal tools; and public perceptions on the ease of registering an FIR. We specifically asked citizens their views on these parameters to gain deeper insights into how well stations are responding to evolving expectations of transparency and accessibility.

## Execution of the Survey

The data collection process started with the training of enumerators/ assessors. The assessors were trained for the field survey through a two-day training programme. In total, during the training programme, around 60 assessors were trained on the concepts of the project, the questionnaire, the survey methodology, the tech application and mannerisms to approach the officials as well as the general public. Upon completion of the training programme, the assessors were immediately deployed for the field survey.

## Final Score Calculation

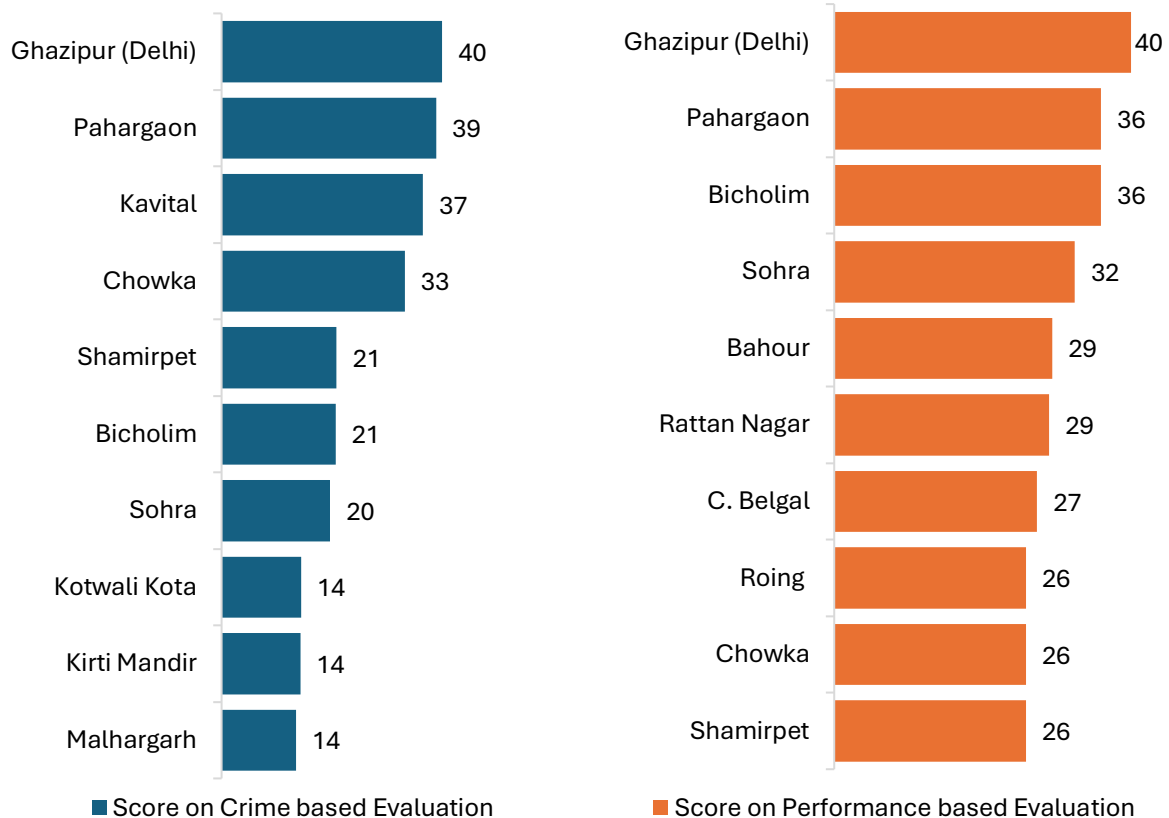

In the case of assessment of score for 'crime based' heads, the technique of Linear Transformation was applied. The final score of 'crime based' heads was termed as  $S_1$  and the score of 'performance based' heads was termed as  $S_2$ . The sum of  $S_1$  and  $S_2$  was termed as  $P_1$  (Part-1 Point). In the case of Part-2 evaluation also, the technique of Linear Transformation was applied. The linearly transformed score of Part-2 was termed as  $P_2$ . The final score was calculated by giving a weightage of 80 percent to  $P_1$  and 20 percent to  $P_2$ .

# 3. Key Observations

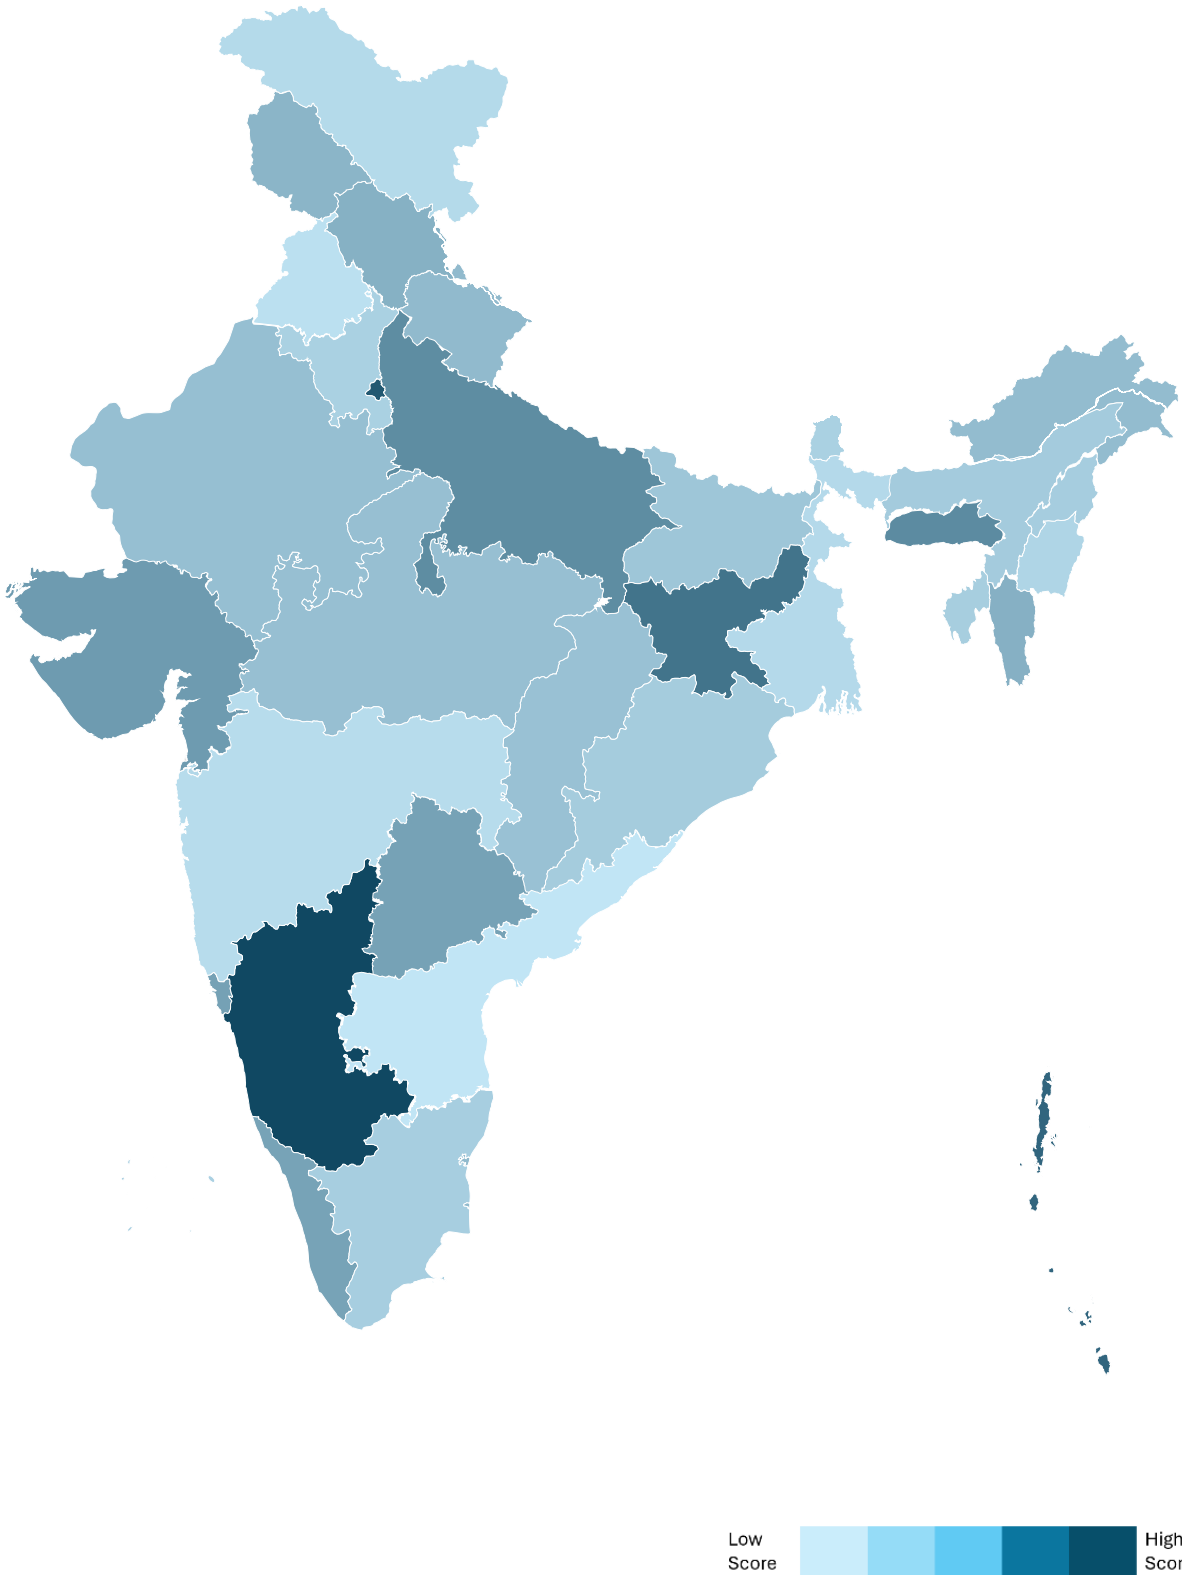

## Part-1: Record Based Evaluation

A format was prepared and circulated to all the shortlisted police stations from across the country. The Station House Officer (SHO) of respective police stations were tasked with submission of filled in format to the assessor appointed by TRANSRURAL. Based on the information submitted by SHO, the record-based evaluation was carried out. The results of the record-based evaluation have been presented under two major heads i.e., Crime Based Evaluation and Performance-Based Evaluation.

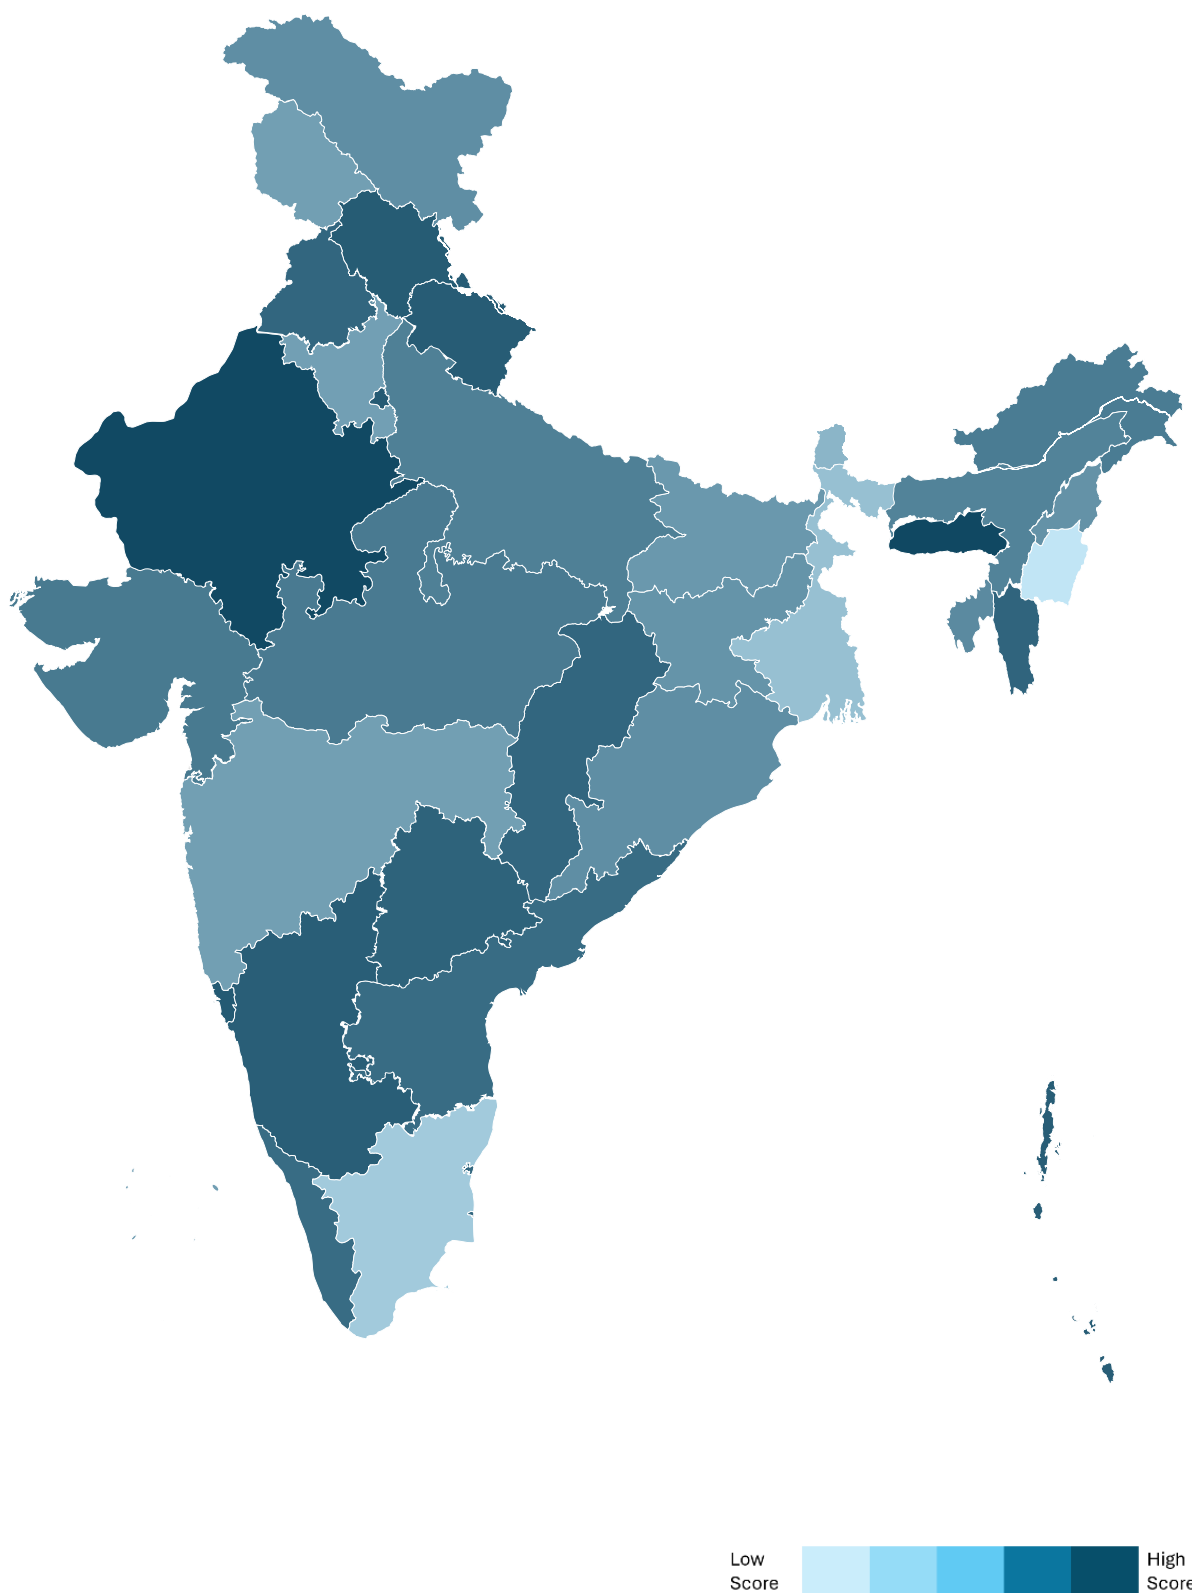

Ghazipur PS, Delhi scored a highest of 40 points for being the best among shortlisted police stations in terms of promptness of action against crimes. It was followed by Pahargaon PS, Andaman & Nicobar Islands (39 out of 40) and Kavital PS, Karnataka (37 out of 40). In the case of performance-based scoring also, Ghazipur PS from Delhi scored the highest of 40 points followed by Pahargaon PS from Andaman & Nicobar Islands and Bicholim PS, Goa (each scoring 36 out of 40).

Categorization of States/UTs on Crime **Based Heads (S1)** Evaluation

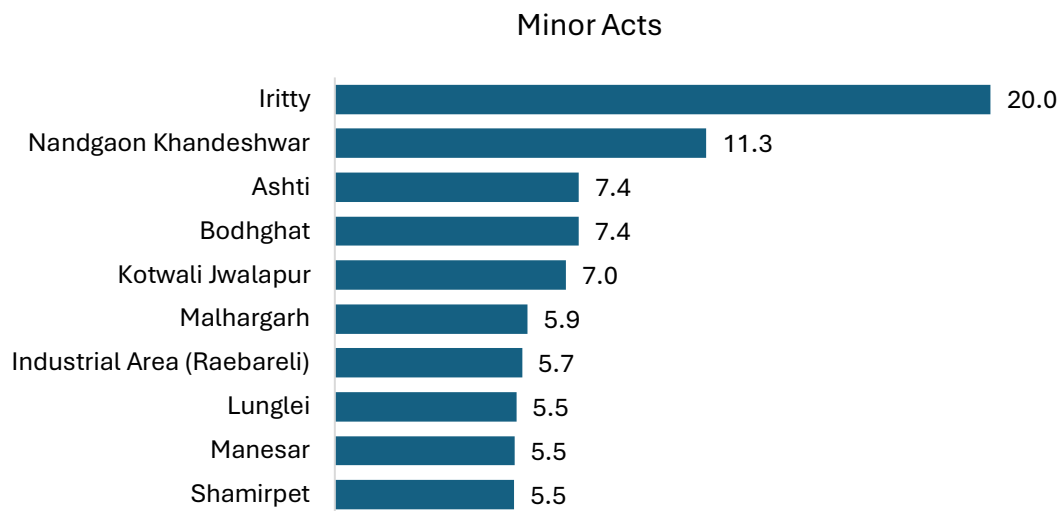

### Categorization of States/UTs on Performance Based Heads (S2)' Evaluation

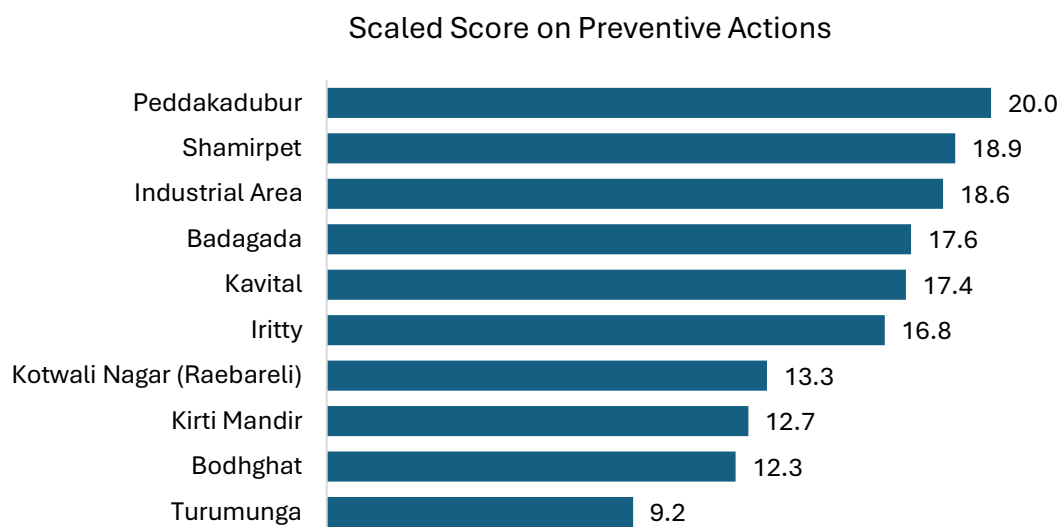

### Head-1: Minor Acts

Under this head, the performance of Police Stations was assessed by awarding positive points based on their active involvement in detecting, seizures and arrest in the cases of gambling, illegal liquors, drugs, violation of arms act, violation of explosives act and other similar acts in which sentence is above 3 years. It is found that on average, around 40 cases per Police Station was recorded under this head during the year 2024. The relative position obtained by the top ten police stations under this head is depicted below.

### Head-2: Preventive Actions

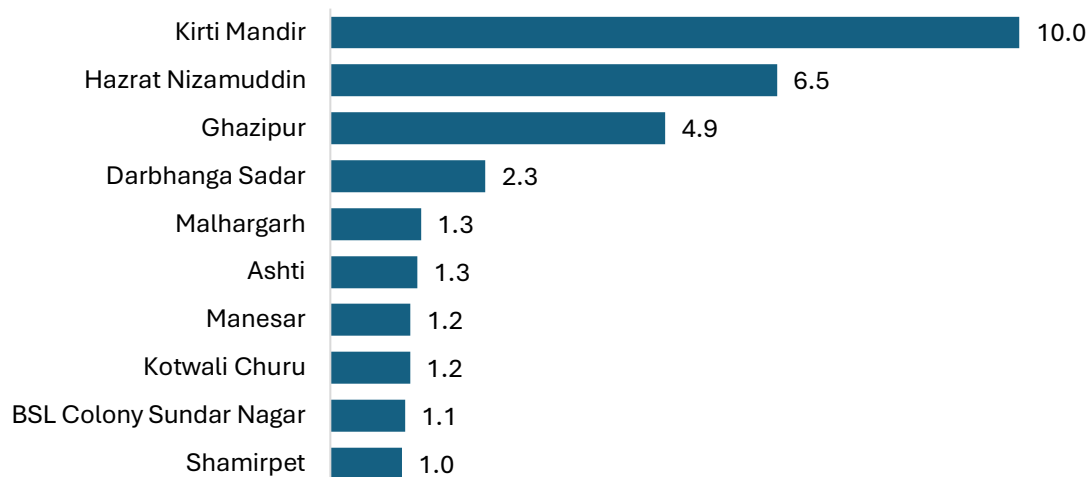

The assessment under this head is mostly concerned with preventive actions. The marks are awarded to the police stations for the execution of orders under Sections 110, 122 and 151 of the Code of Criminal Procedure, 1973. Also, preventive actions under the National Security Act, Prevention of Anti-Social Activities, Goonda Act, Motor Vehicle Act are awarded positive marks. On average, around 657 cases per police station was prevalent under this head.

### Head-3: Execution of Warrants

The marks under this head were awarded based on the execution of warrants of the various kind such as standing warrants, arrest warrants, proclaimed offenders etc. In each of these cases, extra marks were awarded if the person arrested was wanted in another police station. The average number of orders executed under this head was around 257 per police station.

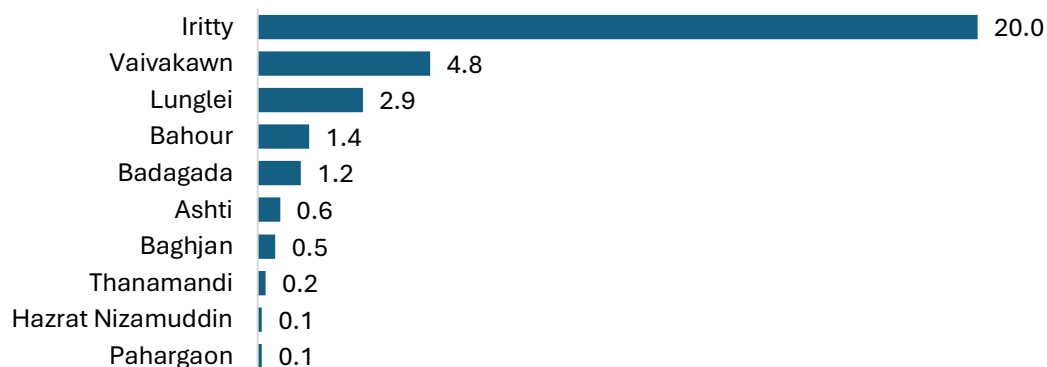

Scaled Score on Execution of Warrants

### Head-4: Disposal of Old Cases

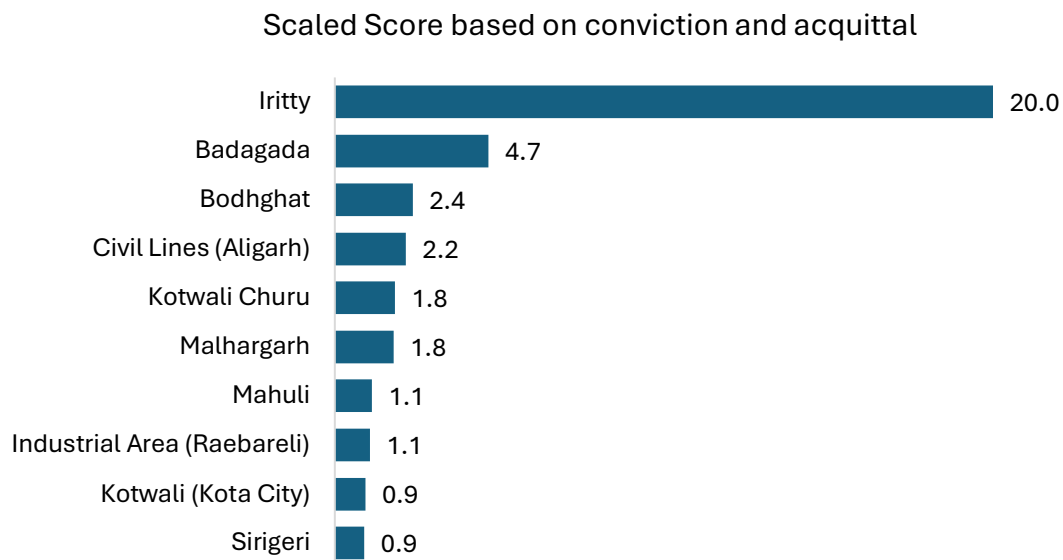

Under this section, positive marks were awarded for disposing each case under section 173 (8) and Section 299 of the Code of Criminal Procedure, 1973. However, the addition of any new case/ individual charge-sheeted under this head fetched negative marks. It is observed that on average, 25 cases were disposed of per police station and at the same time, 7 new cases were added. In case of arrest of charge-sheeted persons under this head, it was around 5 per police station and addition of new charge-sheeted person was around 12 per police station.

Scaled Score on Disposal of Old Cases

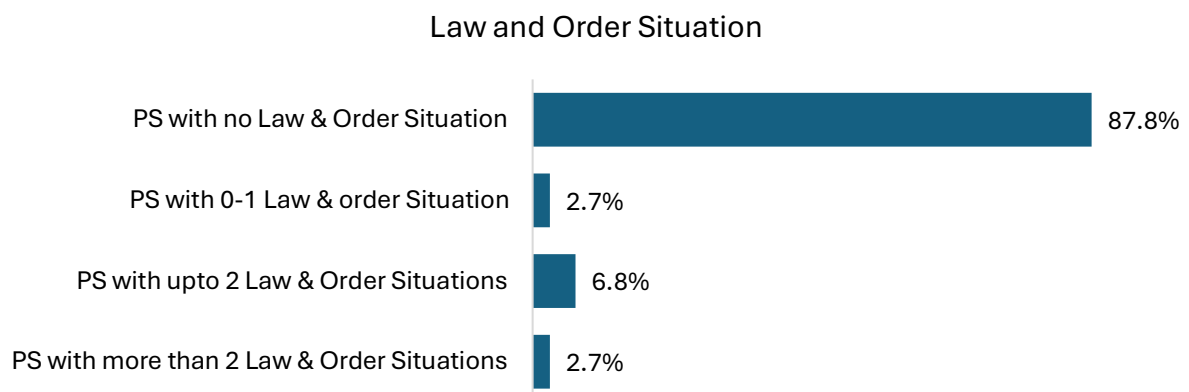

### Head-5: Cases under Case Officer Scheme- Conviction

The marks were awarded to police stations for convictions based on the years of conviction. The higher the years of conviction, higher the allotted marks, was followed. While conviction fetched positive marks, negative marks were allotted for each acquittal. The average number of convictions was around 4 cases and 4 persons per police station. In the case of acquittal, it was averaged around 14 cases and 19 persons per police station.

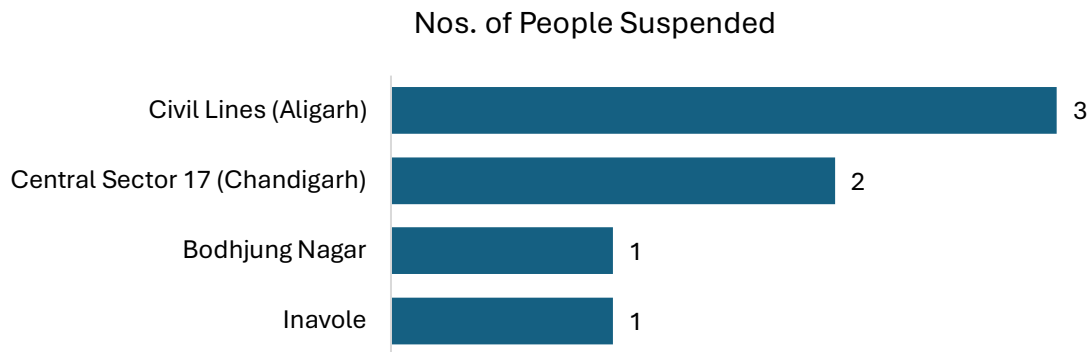

### Head-6: Law and Order Situation

In the cases of Law & Order situations where higher rank officers had to attend to the incidences, the police station fetched negative marks. It is observed that the Law & Order situation arose only at 12.2 percent of the police stations. In the majority of the police stations (87.8%), there was no Law & Order situation during the year.

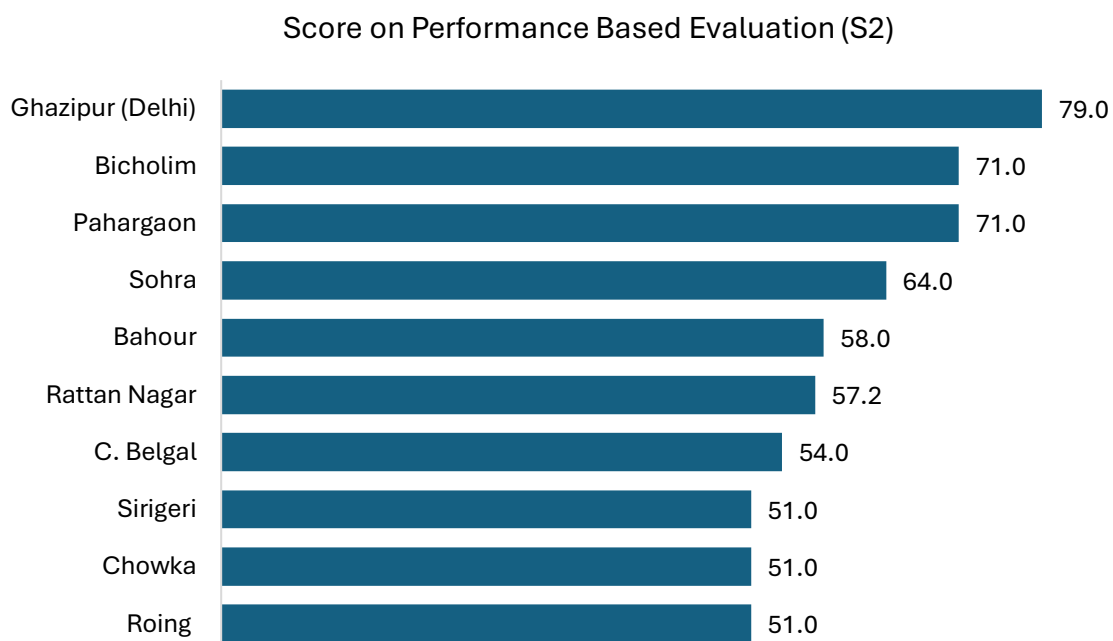

### Head 7 & 8: ACB Trap and Suspensions

Under these heads also, there was provision for negative marking. For each case of trapped personnel and each case of suspension, there were negative marks. In the case of Trap by ACB, no case was found in any police station. However, in the case of Suspension, it was found that a total of 7 personnel from 4 police stations were suspended.

### Head 9-19: Performance-Based Evaluation

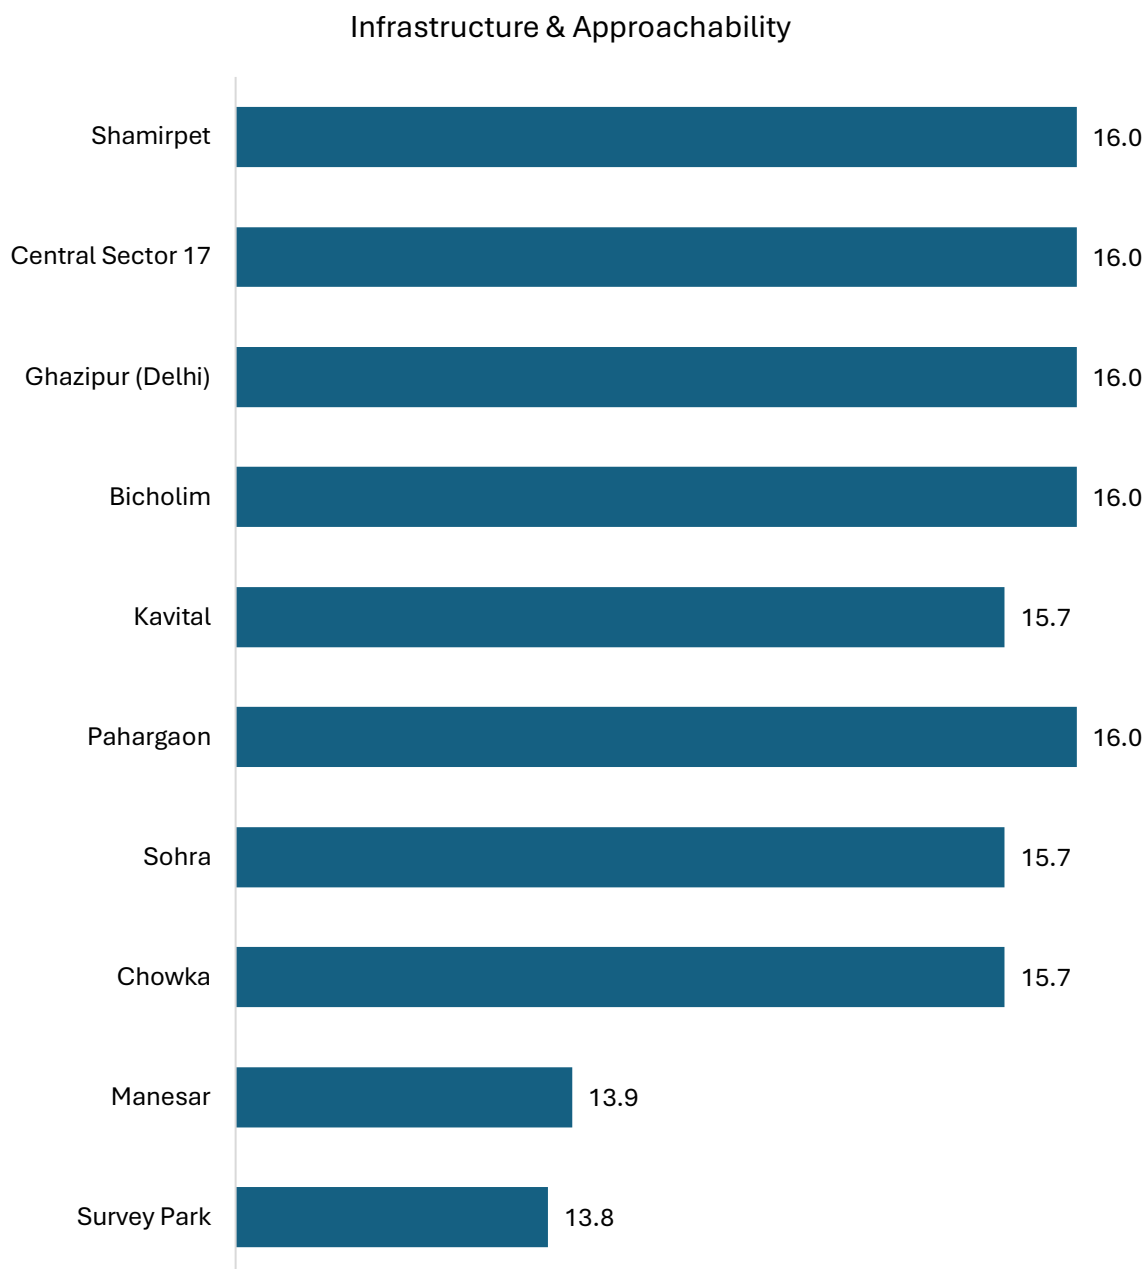

Under these heads, marks were allotted for disposing of old cases, speedy charge-sheeting of cases related to rape and crime against weaker section, recovery of stolen goods, detection of property offences, speedy verifications (for passport, arms, service, etc.), rate of accidents (in comparison to the previous year), rate of disposal of malkhana related case, case pendency rate, Community Liaison Group (CLG) meeting and false entries. The top police stations scoring better marks on these criteria are depicted below in their relative order of performances.

## Part-2: Survey Based Assessment

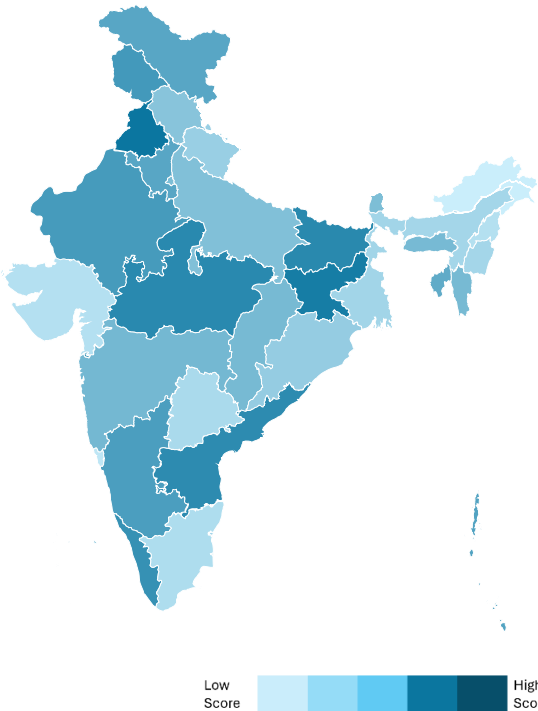

### Infrastructure of the Police Station and approachability

While assessing the infrastructure of the police station and approachability, the major consideration was given to basic amenities for the visitors as well as personnel of the police station. The assessment was done for the infrastructure such as Barrack, Police Station Compound & Building, Lock-up, Mess & Canteen, Record & File Storage, Safety & Security of Police Station and Toilets & Cleaning Staffs etc.

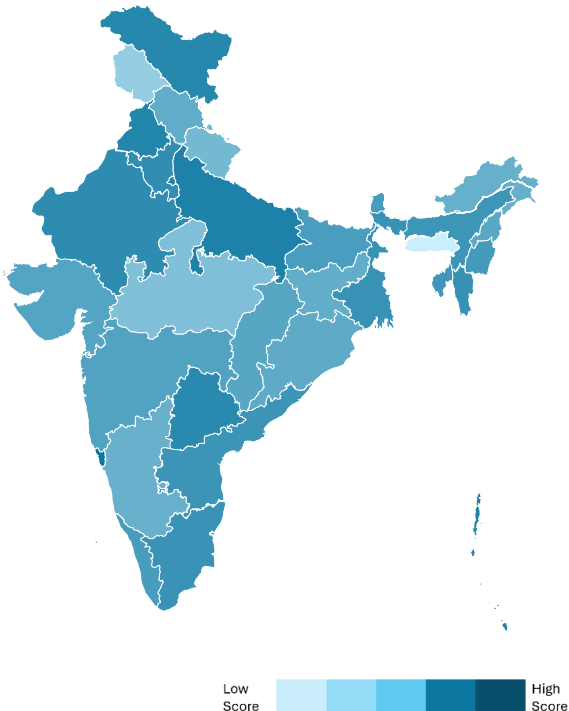

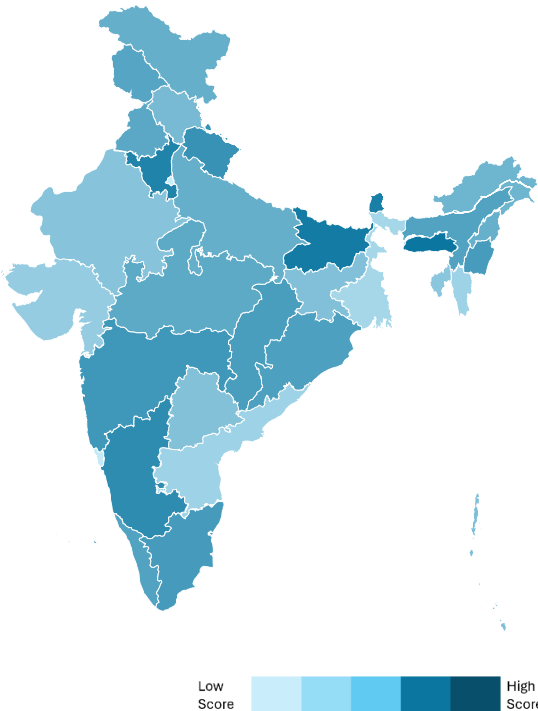

Approachability

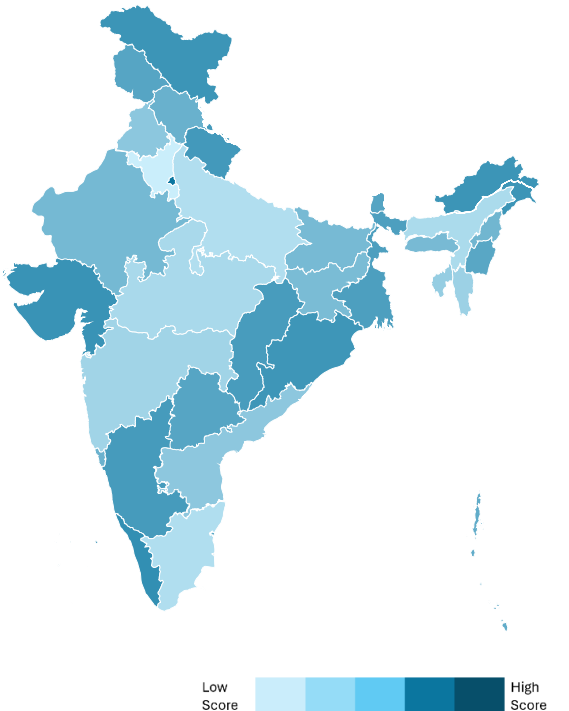

Barrack

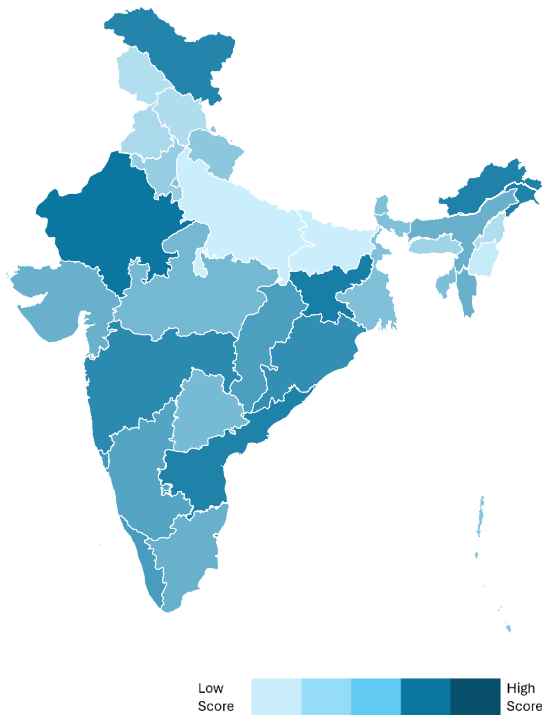

Compound & Building

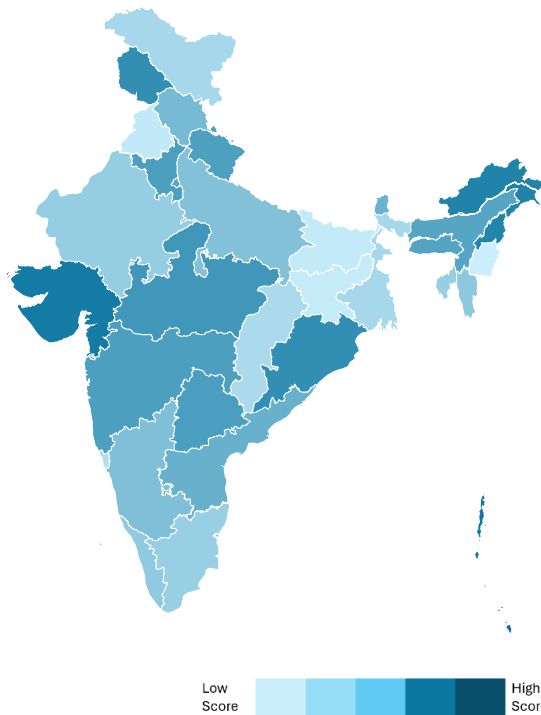

Lock-up

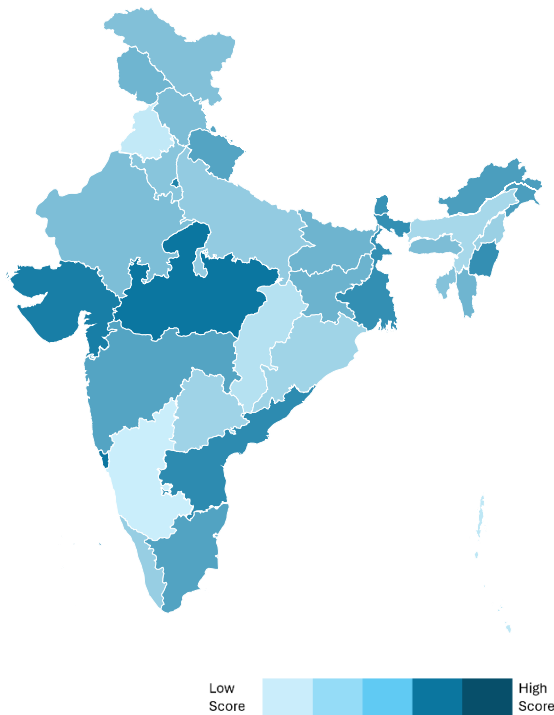

Mess & Canteen

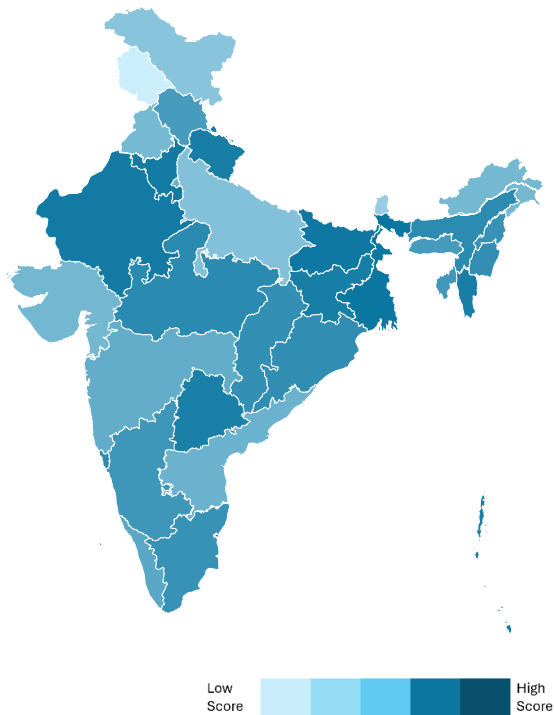

Record & File Storage

Safety & Security

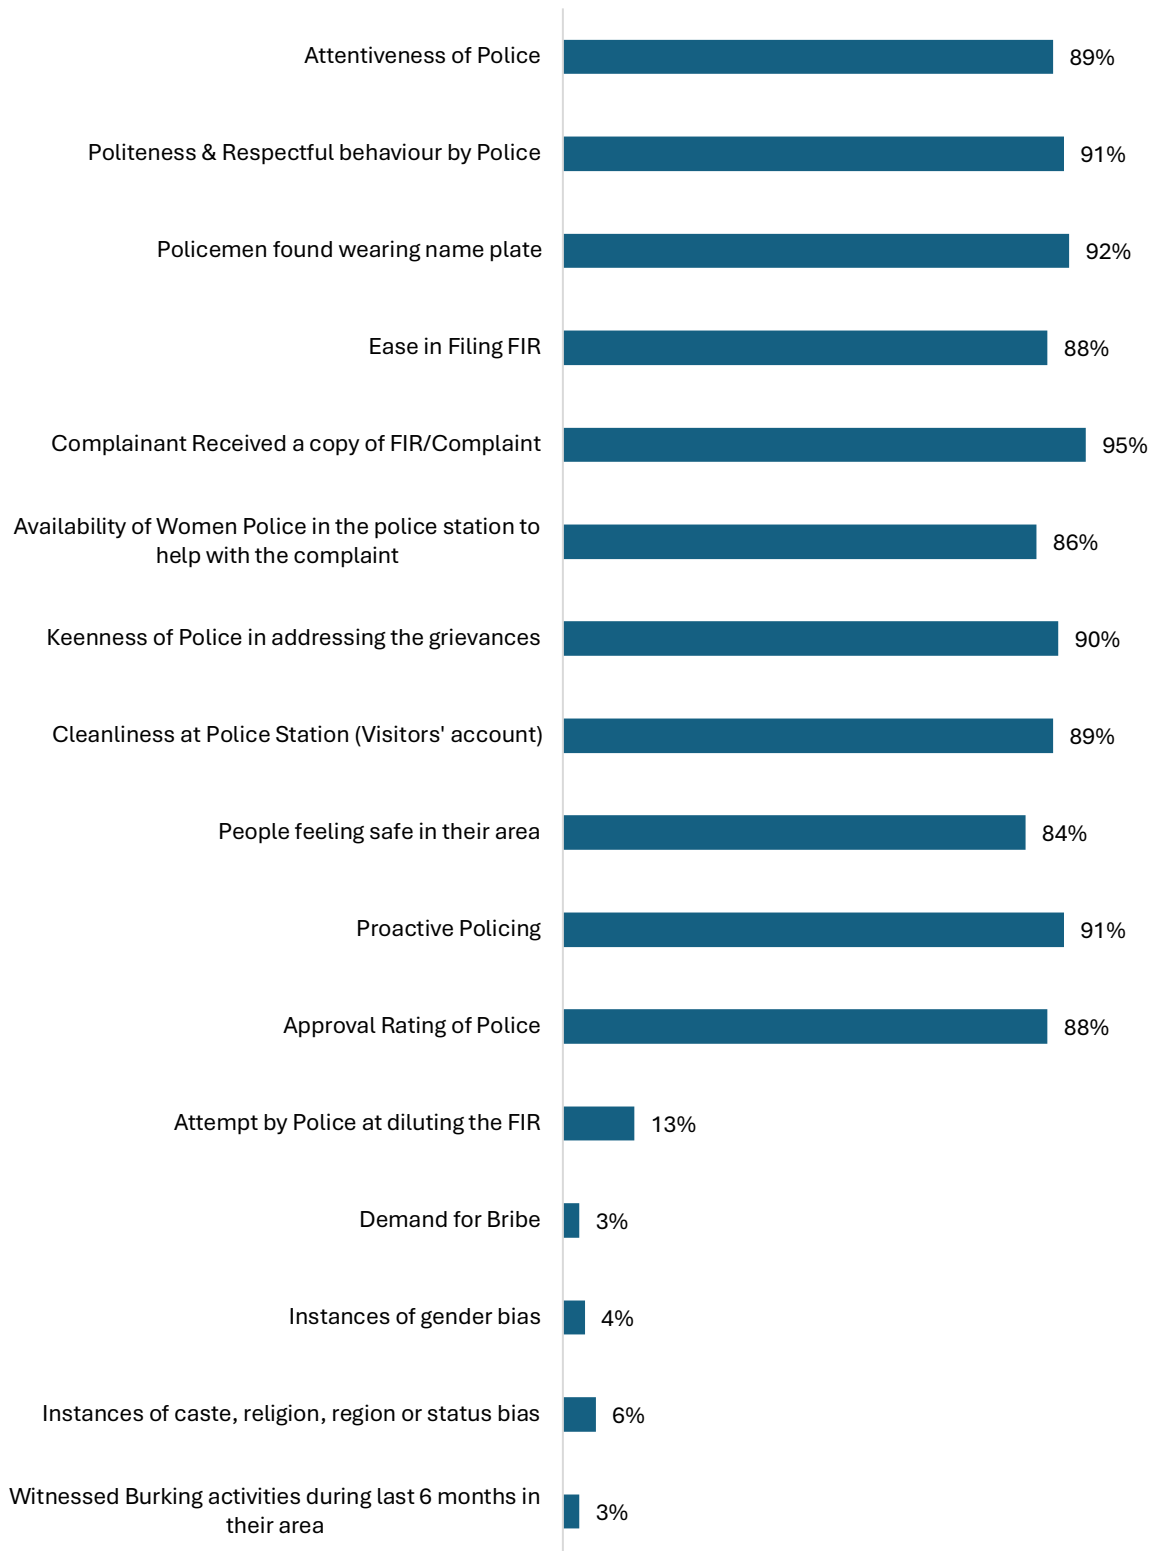

Toilets & Cleaning

**Annexure-2: Questionnaire for Infrastructure & approachability**

Theme	Questions/ Observations
Facilities	Disabled Friendly Facilities- Is there any ramp available for persons with disabilities?
	Power Backup- Does the police station have power back up system?
Fitness	Does the police station have any separate facility for recreational activities / playground / gym?
Pantry	Drinking Water facilities- Is drinking water available for staff and visitors?
	Drinking Water facilities- Is the drinking water cooling facility/ RO/ Dispenser maintained and functional?
	Tea/coffee facilities- Are there tea / coffee facilities / pantry services available?
Approachability and behaviour of Police staff	Are all the policemen wearing uniform as per dress code?
	Are the policemen attentive towards public?
	Are the policemen courteous and polite with the complainants?
Barracks Cleanliness & Facilities	Are barracks available with the police station?
	Are the beds in the barracks clean and well made?
	Are the rooms available with proper lighting?
	Are the rooms properly ventilated?
	Are the walls and ceiling clean, maintained and free of dampness?
	Are there toilets available for barracks?
	Is cooling facility like cooler/AC available in the rooms?
	Is the floor clean and maintained?
	Is the mosquito repellent available and functional in the rooms?
Barracks Toilet Cleanliness	Is the overall look of barrack good?
	Are the urinals clean i.e. not stains, litter or other waste?
	Are the walls & ceiling clean, maintained and free of dampness?
	Is the toilet seat area clean i.e. no stains, litter or other waste?
	Is there any foul smell in the toilets?
	Is running water available in toilet?
	Is the toilet ventilated?
	Is the toilet well lit?
	Is there a flush in the washroom and is it functional?
	Is there any wash basin area present?
Compound Area Cleanliness	Is there soap/hand wash?
	Are the dustbins placed in the compound area?
	Are the dustbins overflowing?
	Are separate dustbins available for wet waste and dry waste?
	Are the emergency contact numbers displayed at the entrance?
	Condition of Security of Boundary wall (Secured/ Unsecured)
	Is the compound area clean?
	Is the name of the police station visible from outside?
