To,

All the Nodal Officers, CCTNS Project of States/UTs

Subject: Clarification to States/UTs regarding submission of connectivity proposal, upgradation of the bandwidth and funding for connectivity

Dear Sir/Madam,

Attention is invited to MHA letters of even no. dated 24th August 2017 and 22nd September 2017 advising States/UTs to upgrade the existing bandwidth from 512kbps to 2mbps using VPNoBB over Copper for CCTNS Police Stations through BSNL for CCTNS Police Stations.

2. Some States/UTs have been seeking clarification whether to submit proposal to NCRB for such upgradation.

3. It is clarified that the States/UTs can upgrade this bandwidth from 512kbps to 2 mbps using VPNoBB over copper in coordination with BSNL for which financial support would be provided up to March 2018 only when the project implementation tenure expires. The States/UTs need to approach NCRB in case they opt for such upgradation through alternative connectivity providers (other than BSNL) so as to ensure network security.

Yours Faithfully,

(Srinivas Pradhan)
DS CCTNS
