To

1. CCTNS Nodal Officers of All States/UTs

Subject: Implementation of CCTNS Project in States/UTs

As you are aware, CCTNS Project is a centrally sponsored mission mode project, which is being implemented across all States/UTs up-to 31st March 2018. For meeting the desired objectives of the project, funds were released during the Financial Year 2017-18, after taking into consideration the balance funds due, funds already released and interest accruals available with the States/UTs. Details of funds allotted head-wise and year-wise under the CCTNS project are enclosed for reference.

2. The interest accruals and savings, if any, may be utilized for CCTNS approved activities with the approval of the State Apex Committee.

3. Now that all funds have been released and that there will be no further releases from MHA for any CCTNS activity, the States/UTs are requested to utilize the released funds optimally on the approved activities for successful implementation of the project. Needless to mention, after the scheduled project implementation, the responsibility to meet the recurring expenditures on the project lies with the States/UTs.

4. The CCTNS Nodal Officers of the States/UTs are requested to reconcile the funds released vide a series of sanctions during the FY 2017-18 and incur expenditures for the activities for which the funds have been released. They are also requested to submit utilization report on monthly basis to MHA with a copy to NCRB.

Vivek Bharadwaj
Joint Secretary (PM)
